

MEMBERSHIP ROSTER

Russell E. "Duke" Iden

This 2004 National Membership Roster was produced through the generous funding of Mr. Russell E. "Duke" Iden.

His desire is to make this contribution to the OX5 Aviation Pioneers in return for the many years he has enjoyed his association with this fine organization. It is really friends like the late Johnny and Bite Livingston, and so many others too numerous to mention, that he dedicates this publication to their memory.

The National Officers, Governors and Members wish to thank Duke for his generosity in making this publication a reality.

HISTORY OF OX5 AVIATION PIONEERS

In June, 1955, Charlie Carroll, then operator of Latrobe, Pennsylvania Airport, appeared before the Aero Club of Pittsburgh. After the meeting, he approached Clifford Ball, then Manager of Greater Pittsburgh Airport and President of the Aero Club of Pittsburgh, and suggested they arrange a rally for old time pilots.

The purpose of the meeting was to round up old time Pennsylvania aviation people, and to honor them for the part they played in laying the foundation of the aviation industry as we know it today.

Cliff Ball agreed to spearhead the project, which was at the time, not expected to be more than of local interest.

Charlie Carroll welcomed the opportunity to host the aviation pioneers. A meeting was arranged at Latrobe Airport, with a luncheon, banquet, and lodging available at the Mission Inn, on August 27, 1955.

Realizing that there may be a need for a record of those who attend in anticipation of another get-together at a later date, temporary registration forms were prepared.

Temporary officers were selected at Latrobe. Russ Brinkley was appointed President; Cliff Ball, Secretary; and Charlie Carroll, Treasurer.

At the conclusion of the affair, 87 persons had signed registration forms, 20 additional forms were signed which were mailed back to the Secretary, for a total of 107 which formed the nucleus of the OX5 Club. The OX5 Club came into existence with the OX5 Club of Pennsylvania as the parent club.

Word of the OX5 Club began to spread like wildfire. By the end of 1956 the total membership was 990. By the end of 1957, 3259 additional membership applications were received bringing the total membership to 4249, the largest growth in members in any one year of the Club's existence. Membership applications arrived from Canada and foreign countries.

Wing Charters were issued. The District of Columbia received Charter #1, Virginia #2, California #3, and Florida #4. Twenty-two charters were issued by the end of 1957.

On May 15, 1971, the OX5 Aviation Pioneers Hall of Fame was inaugurated. A long time dream of Johnny Evans of Pennsylvania, a founding member, the Hall of Fame was made an important part of the OX5 Aviation Pioneers by then President, Karl E. Voelter of Florida. Since then 312 distinguished aviation people who have contributed significantly to the progress, growth or safety of aviation on a national scale have been honored by induction into the Hall of Fame. Attracting attention throughout the world, the Hall of Fame has contributed immeasurably to the prestige and prominence of the OX5 Aviation Pioneers.

The Historian Membership was inaugurated September, 1989, at the National Reunion in Wichita, during Elmer Hansen's term as President. Since that date Pioneer and Historian membership totals are about equal.

Each year, a national reunion of OX5 Aviation Pioneers is hosted by one of the wings in the organization. The reunions attract considerable attention as many members from all parts of the country gather to renew old acquaintances and relive, for a few days, the golden days of yore.

In addition, the OX5 Aviation Pioneers conduct an Awards Program which also pays tribute to members who have made outstanding accomplishments or contributions to aviation.

“OX5 - GRANDDADDY OF AVIATION ENGINES”

The first aero engine of any major significance was the four cylinder water cooled flat monstrosity used by the Wright Brothers in 1903 to power the immortal Wright Flyer biplane. That engine, which was built by Charles Taylor, weighed nearly 200 pounds and developed a doubtful 12 horsepower, under ideal conditions!

Wilbur and Orville built a better engine by 1908 when they sold the U. S. Army Signal Corps their first airplane. It was powered with a four cylinder Wright engine that developed somewhere in the neighborhood of 45 horsepower. Engine development in the United States and in European countries lagged a bit until 1912 when Glenn Curtiss and Henry Krickler developed the first Model “O” water cooled V-8 engine. This engine was then given an experimental status when the Army asked for an engine to power the thousands of trainers that would be used in the war effort. Known as the “OX” model, the engine went through a long development period, and in 1914 was accepted by the Army as the OX5 - the fifth engine in the development program with 90 horsepower and 1400 RPM's.

Later, when the U.S. Navy asked for a reliable engine that would produce at least 100 horsepower, Curtiss and Krickler gave them the OXX6, basically an OX5 with dual ignition!

Thanks to the members of the OX5 Aviation Pioneers, the men and women who flew and/or maintained the engine, and thanks to the Historian Members who pledged to preserve the precious memories.
