

**31st ANNIVERSARY**  
**1955-1986**

**MEMBERSHIP ROSTER**

**CORRECTED TO AUGUST, 1986**

Through generous funding by Mrs. Mary B. Voelter, this 1986 OX5 membership roster is produced and dedicated to the memory of the late Colonel Karl E. Voelter.

A member committed to the purposes of this organization who gave endless time and effort to its welfare, historical significance and preservation of aviation history for future generations. He was truly a beacon of light in the world of flight and stands quietly tall among the men and women who guided the early expansion years of the industry and of the OX5 Aviation Pioneers.

and the highest among figures  
in the country. A just  
and benevolent education  
and culture can never be  
achieved. A tall budget  
is nothing but a  
waste of time, but prob-  
ably the best way to  
achieve a good  
education is to  
have a good  
teacher. The  
best teacher  
is one who  
has a good  
knowledge  
of his  
subject.

## HISTORY OF OX5 AVIATION PIONEERS

In June of 1955, Charlie Carroll, then operator of the Latrobe, Pennsylvania Airport, appeared before the Aero Club of Pittsburgh. He approached Clifford Ball, then Manager of Greater Pittsburgh Airport and President of the Aero Club, after the meeting and suggested they arrange a rally for OX5 pilots.

The purpose of the meeting was to round up old time Pennsylvania aviation people, and to honor them for the part they played in laying the foundation of the aviation industry as we know it today.

Cliff Ball agreed to spearhead the project, which was, at that time, not expected to be more than of local interest.

Charlie Carroll welcomed the opportunity to host the aviation pioneers and a meeting was arranged at Latrobe Airport, with a luncheon, banquet and lodging made available at the Mission Inn.

Word of the rally began to spread. Realizing that there might be a need for a record of those who attended in case another get-together might be desired, Cliff Ball had some temporary forms run off in the office before he left for Latrobe.

Temporary officers were selected at Latrobe until a formal election could be held. Russ Brinkley was appointed President, Clifford Ball was appointed Secretary and Charlie Carroll was appointed Treasurer.

When the affair was over 87 persons had signed the application form, and 20 more had signed the form and mailed them in, with a total of 107 to form the nucleus of the OX5 Club. At that time the OX5 Club of American came into existence and the parent club became the OX5 Club of Pennsylvania.

Word of the OX5 Club began to spread like wildfire. By the end of 1956, the total membership was 990, by the end of 1957 3259 more applications were received, bringing the total membership up to 4249 the largest growth in any one year of the Club's existence. Membership also spread to several foreign countries. To date we have enrolled over 12,000 members.

Wing charters were issued with the District of Columbia receiving Charter #1, Virginia, Charter #2, California, Charter #3 and Florida, Charter #4. By the end of 1957, twenty-two wings had been chartered.

On May 15, 1971, the OX5 Aviation Pioneers Hall of Fame was inaugurated. A long time dream of Johnny Evans of Pennsylvania, and one of the founding members, the Hall of Fame was made an important part of the OX5 Aviation Pioneers by then President, Karl E. Voelter of Florida. Since then 150 distinguished aviation people who have contributed significantly to the progress, growth, or safety of aviation on a national scale, have been honored for their exploits. The Hall of Fame has attracted attention throughout the world and has contributed immeasurably to the prestige and prominence of the OX5 Aviation Pioneers.

In addition, the OX5 Aviation Pioneers conduct an Awards Program which also pays tribute to outstanding contributions of its members.

Each year a national reunion of OX5 Aviation Pioneers is hosted by one of the Wings in the organization. The reunions attract much attention as many members from all parts of the country gather to renew old acquaintances and relive the golden days of yore.

## **"THE OX5 — GRANDDADDY OF AVIATION ENGINES"**

The first aero engine of any major significance was the four cylinder water cooled flat monstrosity used by the Wright Brothers in 1903 to power the immortal Wright Flyer biplane. That engine, which was built by the brothers Wilbur and Orville, weighed nearly 200 pounds and developed a doubtful 12 horsepower — under ideal conditions!

Although Wilbur and Orville built a better engine by 1908 when they sold the U.S. Army Signal Corps their first airplane which was powered with a four cylinder Wright engine that developed somewhere in the neighborhood of 45 horsepower, engine development in the United States and in European countries lagged a bit until 1912 when Glenn Curtiss and Henry Krickler developed the first Model "O" water cooled V-8 engine. This engine was later given an experimental status when the Army asked for an engine to power the thousands of trainers that would be used in the war effort. Known as the "OX" model the engine went thru a long development period, and in 1914 was accepted by the Army as the OX5 — the fifth engine in the development program! 90 Horsepower at 1400 RPM's.

Later, when the U.S. Navy asked for a reliable engine that would produce at least 100 horsepower, Curtiss and Krickler gave them the OXX6, basically an OX5 with dual ignition!
